The first time I looked through the "1001bitPro22PluginforSketchup", I did not believe that such a plugin actually exist, I thought it was a fake site. However, after clicking the Download button, I realized that it is really an amazing plugin. The plugin can be downloaded from the official website. I downloaded the plugin and compared to "SketchUp 14 Pro Plugin", I can see that this plugin is still in the first version and the extra features are quite complete, as expected. Although the plugin can be downloaded for free, I was afraid that the size of the plugin was too big to be downloaded by some outdated antivirus software in some mobile platforms, but thankfully, no such problem. This plugin can be installed and activated without any problem on SketchUp Pro 14 and SketchUp Pro 15. I think that if the company behind the plugin continues to keep the plugin in the first version, this plugin will definitely attract many SketchUp users. I am also impressed by the gesture of the company to keep the plugin in the first version, and I hope that the company is also willing to keep some other plugins for SketchUp in the first version.
